

Dear Kirkland City Council,

Kirkland is a very nice place to live, but it would be even better if we had an indoor community pool. One reason that we need an indoor community pool in Kirkland is so that people would have somewhere to swim all year round and not just the summer. Another reason is so more people can learn how to swim with swim lessons, especially because Kirkland is right next to a lake. Also, right now Kirkland only has one community pool, and we have a lot of people who live here. Finally, if we have a community pool in Kirkland, everyone can be in it and not just people who are rich enough to live in a mansion with a pool. In closing, please build an indoor pool in Kirkland so that everybody can have fun swimming year round.

Kind Regards,

Vinny
